Setting up a weekly time for a check-in across CEMM about ongoing East Palestine technical support, since the air components have been broadening in scope and may continue for an indefinite time period.

Suggested agenda:

1. General updates and discussion on topics, including:
 - Incident air data analysis
 - Air monitoring equipment technical advisory / testing
 - Support on public communications
2. Discussion of any workload issues, other challenges.

Note that I will not be available on the first one (April 4) and Andy will serve as the ORD RACER point person for that week. I'll be back available the following week.
